LIFE OrgBalt: «Demonstration of climate change mitigation potential of nutrients rich organic soils in Baltic States and Finland», LIFE18 CCM/LV/001158  
Kick-off meeting, October 24-25

Ministry of Agriculture  
Republic of Latvia

## Task 3: Integration of the developed tool in the policy planning (responsible MA)

- Ministry of Agriculture of Latvia is responsible for elaboration of CAP and RDP in Latvia.
- The basic strategy to ensure replicability and transferability of the Project outcomes is **integration of the proposed measures into the Rural Development Programmes (RDP)** for the post-2020 planning period.

Ministry of Agriculture  
Republic of Latvia

## Task 3: Integration of the developed tool in the policy planning (responsible MA)

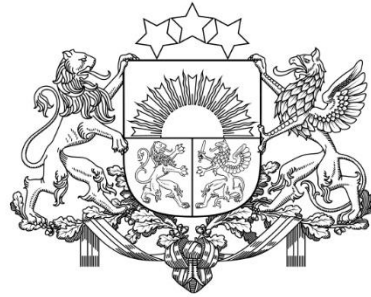

- **Application of the policy planning tool as a part of RDP** thus enabling the end users to apply the developed tool in real life conditions.
- End users targeted **training sessions and materials will be provided to consulting and advisory organisations** to train them in the application of the elaborated tools.
- **Training sessions for individual stakeholders and stakeholder groups** for further practical application of the model and implementation of the proposed management measures **will be provided by consultation and advisory institutions** and organisations.
- Farmers and foresters will use the simulation model **to apply for the RDP support** for the implementation of the CCM measures.

Ministry of Agriculture  
Republic of Latvia

# Expected results

- Initial framework for training sessions for individual stakeholders elaborated 31/08/2022
- Two-level training sessions organised and held 31/03/2023
- Framework for training sessions for individual stakeholders elaborated 30/06/2023
- Workshops on transferability and replicability of project outcomes (framework of individual training sessions for stakeholders, application and best dissemination channels, etc.)
- **At least 20 individual users in each of Baltic States representing at least 10000 ha of organic soils in forest and agricultural lands applied the planning tool-Simulation model 30/06/2023**
