

Dr. Anja Jaeschke – Bavarian Environment Agency

- Coordination of peatland protection in Bavaria
- Concepts, technical basics (guidelines), monitoring, database
- Bavarian Climate Protection Law (2023) and Climate Protection Program (2022): e.g. programs for restoration, agricultural use and forestry of rewetted peatlands
- Main responsibility lies with two ministries:
 - Bavarian State Ministry of the Environment and Consumer Protection
 - Bavarian State Ministry of Agriculture, Forestry and Tourism
 - Various funding programs
- Peatland managers for restoration and alternative agricultural use (incl. paludiculture) as well as a team for restoration of bog woodland
- Acquisition of areas, information and advice for different stakeholders, preparation and support of implementation, project development, public relations
